IV, ACCOUNTING POLICIES APPLIED

1, Principles for recording cash and cash equivalents:

Financial Statements prepared in foreign currencies are converted into Vietnamese Dong at the actual exchange rate of the transacting bank at the time of the transaction, At the end of the year, monetary items originating in foreign currencies are converted at the average interbank exchange rate announced by the State Bank of Vietnam on the closing date of the accounting year.

Actual exchange rate differences arising during the period and exchange rate differences due to revaluation of balances of monetary items at the end of the year are transferred to financial revenue or expenses in the fiscal year.

Actual exchange rate differences arising during the period and exchange rate differences due to revaluation of balances of currency items at the end of the year of basic construction investment activities are reflected on the Balance Sheet and transferred to financial revenue or expenses upon completion of the project handover.

2, Principles of inventories recording:

Principles of inventories valuation: Inventories are recognized at original cost, In case the net realizable value is lower than the cost, it must be valued at the net realizable value, The cost of inventories includes purchase costs, processing costs and other directly related costs incurred in bringing the inventories to their present location and condition.

The cost of purchased inventories includes purchase price, non-refundable taxes, transportation, handling, storage costs incurred during the purchase process and other costs directly related to the purchase of inventories.

Provision for inventory devaluation: Provision for inventory devaluation is established at the end of the year as the difference between the original price of inventory and their net realizable value, The method of establishing provision for inventory devaluation is to establish the difference between the provision that must be established this year and the provision that was established last year but not fully used, leading to the need to establish more or reverse this year.

As at March 31,2025, there are no types of goods and materials that require provision for inventory price reduction.

3, Principles for recording trade receivables and other receivables:

Recognition principles: Customer receivables, prepayments to sellers and other receivables at the reporting time, if:

- Assets with a recovery or payment period of less than a year are classified as Current Assets,
- Assets with a recovery or payment period of more than a year are classified as Long-term Assets

Provision for doubtful debts: Provision for doubtful debts represents the estimated loss value of receivables that are likely to be unpaid by customers for receivables at the time of preparing financial statements.

4, Principles of recording and depreciating fixed assets:

4,1 Principles of recording tangible and intangible fixed assets

Fixed assets are recorded at original cost, During use, fixed assets are recorded at original cost, accumulated depreciation and residual value.

Address: 19th floor, Vinaconex tower, 34 Lang Ha, Hanoi

Depreciation method for tangible fixed assets and intangible fixed assets: Depreciation is calculated using the straight-line method, Depreciation time is estimated in accordance with Circular No, 45/2013/QD-BTC dated April 25, 2013:

| - Buildings and structures | 20 - 35 years |
|----------------------------|---------------|
| - Machinery and equipment | 10-15 years |
| - Means of transportation | 05-08 years |
| - Management equipment | 03 - 05 years |
| - Intangible fixed assets | 65 years |
